

Specialty Hospital

All Staff Members,

I cannot begin to say thank you enough with just words but I will try. I believe there is truly something special and unique about the care and concern you have for the patients and their families who you treat. You have a grace under fire, a patience that surpasses the norm, and truly a desire to see patients be well.

The way you respond to a patient's "good" days and/or "bad" days never wavered – even among feelings of frustration, the level of care was so incredibly evident it brought me as a family member reassurance that my husband was truly at the right place and in the right hands. The respect and attention you gave to not only my husband as the patient but to me as his wife, as well as extended to his family members and visitors – was superior and made a very difficult situation for us all – hopeful and tolerable.

I truly appreciate each and every person who was involved with my husband's care on all shifts and especially for the kindness and respect you all showed towards me! Thank you for being so patient even with me. It made a difference and you all need to know that it doesn't go unnoticed!

Thank you,
